I have been finance broking for the past 16 Years and have been accredited with 3 Aggregators over this period. I am a small brokerage firm with 1 other broker and 4 support staff.

I joined the Specialist Finance Group as my Aggregator in 2006. With the group being a small family based business as compared to some of the larger aggregation firms, I have found this to be a great advantage to my business for many reasons.

One of the main benefits to me is that the attention I get from the support staff and even the managing director to deal with any issues relating to my business, is very personal and supportive. This has assisted me in growing my business with confidence and achieving new goals.

The support I have in regards to new industry software provided by Specialist, is the biggest benefit to my business over the past 2 -3 years. Assisting me in training my staff and always improving our understanding of the software program, has allowed me to work more efficiently. Regular training sessions and development days assist with keeping up with products and current legislation requirements.

Specialist Finance Group offer flexible remuneration packages and always pay in a timely manner which is important to my business. Access to information regarding my commissions is very simple.

I find Specialist Finance Group are an excellent aggregator for all small & larger brokerages who want the personal touch, without giving up professional support and guidance that you need in the current broking market. I recommend them to any brokerage firm.

Yours truly,
